## EVERYDAY 7:50-8:20 Homeroom

As students start to come in at 7:50 they will put their BEE Binders in the pink bin right inside the classroom. BEE Binders are checked, especially Communication Folders for potential dismissal notes.

Students may pull bins if not other necessary activities are there for them to individually complete.

**8:20ish** -Little Gator News will come on, and after that you may send the black folder up with any notes. Attendance and Lunch count are submitted via PowerSchool.

I have pencils that students can exchange daily in the morning. If they have don't have a pencil they can buy one with a golden ticket.

## Calendar & Morning Meeting 8:20-8:30

# GUIDED READING & DAILY FIVE

During Daily Five - Students will be working independently on a variety of literacy and language activities. Those activities include:

\* **WORD WORK/WORK ON WRITING** will focus on practicing spelling and sight words, along with reviewing Saxon phonics skills as they apply to words.

\* **READ TO SELF** will focus on students reading books that are at their independent level along with those that provide the exposure to sight words and decodable phonics skills. >> Students will be good fit books during assigned days for their reading bags that are stored within the classroom.

\* **LEXIA** is tiered to meet children's individual language skills and is administered through the iPads and Chrome Boxes.

\* **MRS. DEGOLIER** will be working on Saxon Phonics Decodable Readers along with response questions.

Read to Someone is utilized during CORE reading time when Mrs. Wight can make active observations, as needed.

**9:15-10:00 >>> Introducing Daily 5 (Mrs. Degolier is pulling YELLOW & ORANGE group daily for 15 minutes) \*Mrs. Wight is having students begin with a Word Work MUST DO, and then make a daily 5 choice reviewing expectations DAILY >>> Mrs. Wight will rotate, and pull students based on individual needs at this time.**

MONDAY	No School
TUESDAY	Word Work Must Do: Cut and Write - color code vowels (red) and consonants (blue), cut and glue, then write their spelling words. Once word work is complete students may move on to Lexia or Word Work free choice! It will take some of the students the entire time to complete The cut and write. If they don't finish they can stay in at recess to finish it.
WEDNESDAY	Word Work Must Do: Sight Word Booklet You can complete this whole group. I would at least do ABC order together. Feel free to use my document camera and do it on the smartboard. ABC order is a new skill that they are slowly working on! >>> Kids that finish can make a word work choice, read their story of the week, or get on Lexia!
THURSDAY	Word Work Must Do: Spelling & Sight Word Search! You can complete this whole group utilizing the document camera. Make sure they complete the sentences at the bottom. >>> Kids that finish can make a word work choice, read their story of the week, or get on Lexia!
FRIDAY	PRACTICE INFERRING! >>> "Who Am I?" complete the activity together. They will probably really enjoy this activity. Remind them to listen to ALL the clues and be good detectives. *complete whole group (again, use the document camera if you'd like)

**READ TO SOMEONE IS UTILIZED DURING CORE READING TIME WHEN MRS. WIGHT CAN MAKE ACTIVE OBSERVATIONS, AS NEEDED.**

# CCSS Spiral Trace: Skills, Concepts, and Applications

**Mastery Expectations** This Spiral Trace outlines instructional trajectories for key standards in Unit 2. For each standard, it highlights opportunities for Focus instruction, Warm Up and Practice activities, as well as formative and summative assessment. It describes the **degree of mastery**—as measured against the entire standard—expected at this point in the year. For a general discussion of the *Everyday Mathematics* spiral and how it's represented in the program, see the online *Implementation Guide*.

## Operations and Algebraic Thinking

**1.OA.1** Use addition and subtraction within 20 to solve word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using objects, drawings, and equations with a symbol for the unknown number to represent the problem.

By the end of Unit 2, expect children to solve and interpret number models for change-to-more and change-to-less stories within 10.

**1.OA.3** Apply properties of operations as strategies to add and subtract. Examples: If  $8 + 3 = 11$  is known, then  $3 + 8 = 11$  is also known. (Commutative property of addition.) To add  $2 + 6 + 4$ , the second two numbers can be added to make a ten, so  $2 + 6 + 4 = 2 + 10 = 12$ . (Associative property of addition.)

By the end of Unit 2, expect children to observe that adding the same two numbers in a different order results in the same sum.

**1.OA.5** Relate counting to addition and subtraction (e.g., by counting on 2 to add 2).

By the end of Unit 2, expect children to use a counting strategy to find the sum of two numbers.

**1.OA.6** Add and subtract within 20, demonstrating fluency for addition and subtraction within 10. Use strategies such as counting on; making ten (e.g.,  $8 + 6 = 8 + 2 + 4 = 10 + 4 = 14$ ); decomposing a number leading to a ten (e.g.,  $13 - 4 = 13 - 3 - 1 = 10 - 1 = 9$ ); using the relationship between addition and subtraction (e.g., knowing that  $8 + 4 = 12$ , one knows  $12 - 8 = 4$ ); and creating equivalent but easier or known sums (e.g., adding  $6 + 7$  by creating the known equivalent  $6 + 6 + 1 = 12 + 1 = 13$ ).

By the end of Unit 2, expect children to add and subtract within 10, including finding pairs of numbers that add to 10.

Go to [connectED.mheducation.com](http://connectED.mheducation.com) for comprehensive trajectories that show how in-depth mastery develops across the grade.

**1.OA.8** Determine the unknown whole number in an addition or subtraction equation relating three whole numbers. For example, determine the unknown number that makes the equation true in each of the equations  $8 + ? = 11$ ,  $5 = \square - 3$ ,  $6 + 6 = \square$ .

★ By the end of Unit 2, expect children to represent number stories using number models that include a symbol for the unknown value.

**Numbers and Operations in Base Ten**

**1.NBT.1** Count to 120, starting at any number less than 120. In this range, read and write numerals and represent a number of objects with a written numeral.

★ By the end of Unit 2, expect children to count and represent a number of objects (<20) with a written numeral.

**Measurement and Data**

**1.MD.4** Organize, represent, and interpret data with up to three categories; ask and answer questions about the total number of data points, how many in each category, and how many more or less are in one category than in another.
